SUMMARY

Graduate B.Tech CSE student skilled in Java, Python, C++, SQL, and Data Structures - Algorithms. Experienced in debugging complex systems, building machine learning pipelines. For details, [Click Here](#).

WORK EXPERIENCE

IIT Kharagpur — GRISHMA Summer Project Intern May 2026 – Present

- Developed BODH-I, an AI-powered cognitive stress assessment platform using machine learning.
- Built and evaluated ML models for cognitive stress prediction and analysis.

Infosys Springboard — Software Engineering Trainee Jun 2025 – Feb 2026

- Developed a machine learning model for used car price prediction.
- Applied data preprocessing and model evaluation to optimize prediction accuracy.

Google Summer of Code — Open Source Contributor Oct 2024 – Nov 2024

- Enhanced repo structure and documentation, enabling 50+ developers to contribute efficiently to enterprise-scale projects.
- Ranked Collaborated with global maintainers, improving repo structure and documentation to support 50+ developers; demonstrated distributed problem-solving and open-source research contribution.

Machine Learning Intern — Atharvo India Pvt. Ltd (IIT Guwahati) Jun 2024 – Jul 2024

- Developed ML models (SVM, Logistic Regression) achieving 85% accuracy; automated preprocessing workflows reducing pipeline time by 30%, simulating ETL efficiency for real-world datasets.

PROJECTS

Mano Veda — AI-Powered Early Alzheimer's Detection App [Link to Demo](#)

Developed AI-powered Alzheimer's detection app integrating ML-based cognitive score analysis; emphasized interpretability and reliability in sensitive medical contexts.

Rancho's Platform — Automated Career Development Platform [Link to Demo](#)

Built automated career development platform leveraging GitHub Actions; focused on fairness, transparency, and accessibility in AI-driven workflows.

EDUCATION

2022 - 2026 Bachelor's Degree at **Guru Nanak Institute of Technology** (GPA: 8.88/10.0)

SKILLS

Programming	Python, C, C++, Java, SQL, JavaScript, NodeJS
Core Competencies	Data Structures and Algorithms, Debugging, OOP, Operating Systems
Systems	Linux/Unix, Networking (TCP/IP), Version Control (Git)
Research Skills	Machine Learning, Computer Vision, Deep Learning, Algorithm Optimization
